

dryrainge™

***Don't let the weather
control your game.***

The dryrainge offers the ultimate in protection against wind or rain and serves as an ideal source of protection from harmful UV rays. It is an affordable, semi-permanent and portable, all weather driving range shelter.

“Swingin’ in the Rainge”

Ease of assembly and portability...

The dryrainge's design allows it to be quickly assembled over both natural grass and artificial tee surfaces.

- The dryrainge can be easily assembled in under an hour.
- The ease in which the dryrainge can be relocated allows for renewal of natural grass surfaces.
- The dryrainge provides an inexpensive, aesthetically pleasing and maintenance free substitute to permanent shelters.

Get more from your range, with dryrainge...

Provide your membership and golf professional with increased practice time.

- Members can hit balls off natural grass, allowing for easy transition from practice tee to first tee box.
- During rain delays, allow your members the opportunity to practice their swing.
- Cancelled golf lessons due to rain or wind are a thing of the past, lessons stay on track due to reduction of lost days.

Don't let range revenues get blown or washed away!

The dryrainge pays for itself!

- The dryrainge allows you to capture range revenue that had previously been lost due to weather.
- Golf schools, clinics and demo days previously cancelled due to weather, go on as scheduled.
- Increased exposure to your facility provides the opportunity for pro shop sales, lessons and rounds booked.
- dryrainge comes equipped with a 2 x 10 material overlay that can be utilized as advertising for sponsorships or course logos.

Strength and durability...

- The dryrainge frame is constructed of 2 3/8" structural round tubing with strength that surpasses that of pipe.
- Tubing is powder coated in the colour of your choice.
- This quality finish is resistant to corrosion, abrasion and fading from sunlight.
- The cover is made from 10 ounce woven polyethylene which provides strength and protection from the elements.
- The cover, available in a wide variety of colours, has a limited five year warranty and a one year manufacturers warranty.
- dryrainge is available in both a two or three man size, adapting to your range space.

What the Golf Professionals are saying...

- "We were considering a permanent structure but it doesn't offer the flexibility of the dryrainge."
- "The dryrainge has enabled us to keep on schedule with lessons. Without it, rebooking and cancellations were a continuous problem."
- "The members love it. It doesn't matter what type of weather, rain or shine, someone is always using it!"
